

Hope (Lockdown Session), June 2020
Music: Giordano Girotto & Debbie Elliott
Lyrics: Debbie Elliott © All rights reserved

Finding my way back home
A world apart from everything I've ever known
Come be my guide, hope

Finding my way back home
New light, new love for everyone I've ever known
You by my side, hope

A bridge to cross, a tear to cry
A time to sing, our dreams won't die
As rainbows in the windows fly
A vision I call hope

Finding my way back home
A world apart from everything I've ever known
Come be my guide, hope

An eagle soaring way up high
A brave new angel joins the sky
A world to heal, to unify
A vision I call hope

Our heroes fight to win this war
Each precious life worth fighting for
Shine on, shine on
One day we'll see our Promised Land
New footprints running through the sand
When no one is alone

Finding my way back home
New light, new love for everyone I've ever known
You by my side, hope

A bridge to cross, a tear to cry
A time to sing, our dreams won't die
As rainbows in the windows fly
A vision I call hope
An eagle soaring way up high
A brave new angel joins the sky
A world to heal, to unify
A world that I call home
